

**Talcott Mountain Science Center**

**Topic** Botany - week 3

**Home School Science**

**Instructor** Dr. Z

**Home Links**

**Date** Oct 13, 2023

**Here's some information about the activities your student did with us. Links at the bottom will help you explore further. Enjoy!**

### **What did we do (content, skills, data collection)?**

- \* We finished our flower art from last week
- \* Lesson: gymnosperms vs angiosperms
- \* Collected 2 gymnosperms
- \* Lesson: monocots vs dicots
- \* Collected 1 monocot
- \* Lesson: woody vs nonwoody
- \* Collected 2 woody and 3 nonwoody (will finish next week)

### **How did we do it (materials & methods)?**

- \* Lessons were via notes and diagrams on the blackboard
- \* Collected plants around TMSC campus
- \* Took notes for each plant collected
- \* Added them to our plant presses

### **Where can we find out more?**

- \* <https://alec.unl.edu/documents/cde/2017/natural-resources/classification-and-naming-of-plants.pdf> (plant classification)
